

Fully automated and streamlined producer onboarding through AgentSync's integrated process: license verification, contracting, and background checks - all in one place!

Built on the Salesforce platform, AgentSync automatically enforces state producer licensing and appointment regulatory requirements. Take your producer management one step further by effortlessly integrating background checks and e-signature into your onboarding process for faster internal workflows and a better producer experience by leveraging our trusted partners:

Background Screening with AgentSync

Verified First

Expand the AgentSync functionality with integrated background screening! Easily order background checks *within* AgentSync. With a few simple clicks, you can access Verified First's background screening solutions, including robust background and drug screen packages, all within AgentSync. Plus, the report results are available on the Contact/Candidate page, meaning **you'll never have to leave AgentSync!**

- Minimize data entry
- Save time and effort
- AVG cost savings of 68% vs traditional background checks
- Reduce paperwork by collecting required forms electronically
- Create efficiency and visibility into your onboarding process

Speed

Reducing time to hire gives you a significant competitive advantage, which is why Verified First strives to provide you accurate and thorough results in industry-leading turnaround time.

Client care

Along with our 98% Client Satisfaction rating (seriously 98%—we've triple-checked!), our clients experience less than 30-second average hold times with a team of U.S.-based only employees and client care staff.

Compliance

Our in-house, Public Records team, consisting of compliance, legal, SHRM and PBSA-certified experts, helps you mitigate risk and stay compliant with FCRA regulations.
